

Job Descriptions (JD) – Technical Positions

1. Full Stack Developer (Fresher / Entry-Level)

Role Overview:

The Full Stack Developer will assist in developing and maintaining web applications, working on both frontend and backend components under the guidance of senior developers.

Key Responsibilities:

- Assist in developing responsive web interfaces using frontend **technologies**
- Support backend development and API integration
- Help in debugging, testing, and improving application performance
- Work with databases for basic data storage and retrieval
- Collaborate with the design and development team to implement features
- Modify and improve code based on feedback and project requirements
- Training junior staff and students to foster their skill development and professional growth.

Required Skills:

- Basic knowledge of HTML, CSS, and JavaScript
- Familiarity with at least one frontend framework (React.js or similar)
- Basic understanding of backend technologies (Node.js)

- Basic knowledge of databases such as MySQL or MongoDB
- Problem-solving skills and willingness to learn new technologies

Job Openings

Total Positions Available: 3

Eligibility Criteria

Candidates who have completed or are in the final year of the following degrees are eligible to apply:

- B.Tech (Bachelor of Technology)
- B.E (Bachelor of Engineering)
- MCA (Master of Computer Applications)
- BCA (Bachelor of Computer Applications)
- B.Sc (Bachelor of Science)
- M.Sc (Master of Science)
- Any other relevant or equivalent degree

Note: Candidates from non-technical backgrounds with a strong interest in the technical domain and relevant knowledge are also encouraged to apply.

Selection Guidelines

The Company will conduct the evaluation and selection process based on its internal assessment criteria and requirements. While every effort will be made to ensure a fair and

transparent process, the final decision regarding candidate shortlisting and selection will rest with the Company.

The Company may also make reasonable adjustments to the selection process, if required, in alignment with its hiring needs.

Salary / Stipend Structure

(For Fresher / Entry-Level Positions)

All selected candidates will undergo an **internship period of six (6) months**, which is structured to include training, learning, and practical exposure.

Internship & Training Period:

- The **first three (3) months** will be considered as a **training internship period**.
- During this initial training period, the internship will be **non-payable**.
- From the **fourth month onwards**, based on **exceptional performance**, the company may start providing a stipend.
- If the performance does not meet the required expectations, the internship may remain **non-payable for the full six (6) months**.

Stipend Structure:

- After completion of the internship period, or earlier in case of exceptional performance, a stipend may be offered.
- **Stipend Range: INR 8,000 to INR 10,000 per month**
- The stipend amount will depend on:
 - Individual performance

- Skill improvement and learning progress
- Contribution to assigned work and responsibilities

Full-Time Employment & Salary Structure

Based on overall performance during the internship period, candidates may be considered for **full-time employment**.

Technical Positions

(Full Stack Developer)

- **Salary Range Minimum: INR 17,500**
- Final salary will be decided based on:
 - Technical skills and performance
 - Internship evaluation
 - Project and role requirements

Job Location

- The job location for all the mentioned positions will be **Onsite**.
- Selected candidates will be required to work from the **company office location** as per project and role requirements.

Placement Drive – Evaluation Process & Guidelines

This document outlines the evaluation process and guidelines for the upcoming placement drive.

1. Drive Execution Criteria

The execution of the placement drive will be determined based on the number of candidates registered:

- If the number of registered candidates is **more than 50**, the placement drive will be conducted at the **college premises**.
- If the number of registered/interested candidates is **less than 50**, candidates will be required to attend the drive at the **company's location**.

2. Proposed Drive Schedule

The placement drive will be conducted on **mutually agreed dates** between the college and the company.

- **Company's Preferred Dates:** 11th May 2026 to 15th May 2026

3. Selection Process

The selection process will consist of the following three rounds:

1. **Coding Round**
2. **Oral Technical Round**
3. **Behavioral Round**

4. Mode of Conduct

All rounds of the placement drive will be conducted in **offline mode**.

5. Additional Information

Further details regarding the interview process, evaluation criteria, and scheduling will be shared once the company receives the **final list of interested candidates** from the college.
